A BLACK HISTORY MONTH CELEBRATION

THE ANTI-BIAS COMMITTEE OF THE SURPREME COURT

The goal of the Anti-Bias Committee of the Supreme Court, Civil Branch, New York County, is to promote tolerance, fairness, understanding and a sense of community in our court and beyond. The membership of the Committee reflects the diverse character of our workforce and wider society. All programs and activities sponsored by the Committee are in furtherance of this important goal.

The Committee is delighted to host Dance Theatre of Harlem during Black History Month. This exceptional organization embodies the principles and goals of the Committee.

DANCE THEATRE OF HARLEM

Dance Theatre of Harlem is a leading dance institution of unparalleled international acclaim, whose mission is to maintain a ballet company of artists of African-American and diverse backgrounds who perform the most demanding *repertoire* at the highest levels of quality, a world-class school that trains young people in classical ballet and the allied arts; and education and community outreach programs that provide positive role models, instruction and introduction to the arts.

The Dance Theatre of Harlem School, a professional studio school and conservatory, located in the historic Sugar Hill section of Harlem, offers exceptional dance training for talented young people. Founded in 1969 by Arthur Mitchell — an accomplished artistic director, astute educator, talented choreographer and extraordinary dancer — following the assassination of Dr. Martin Luther King, Jr., as an institution where young people regardless of race, creed or class could receive outstanding training in classical dance, today Dance Theatre of Harlem stands as a beacon of hope and possibility for the many students who daily walk through its doors. The Dance Theatre of Harlem School is accredited by the National Association of Schools of Dance (charter member) and is listed as an institution of higher education by the United States Department of Education and authorized to enroll foreign students.
